**NEW** Temporary Cement Remover

# temp:ex

## Temporary Cement Remover

temp:ex is a solvent for zinc oxide based, dental temporary cements.

“Until now, the removal of temporary cement has always been expensive labor-intensive and annoying. Now, with temp:ex, this process runs simultaneously in the background. In the meantime, my assistant is able to take care of the patient.”

Dr. Sigmar Schnutenhaus

### Ordering information

temp:ex, 250 ml (8.45 fl.oz.)

No. 6600 0000

### Recommended extension

SYMPRO, 100–240 V
