Specialized Brush Set for Micro-Layering

The lay:art micro set is a brush set specifically developed for micro-layering applications in ceramics and composites. Five coordinated brush geometries support the controlled handling of modern micro-layering materials, enabling the precise execution of 3D shaping, 2D staining, and internal staining techniques. Depending on individual working preferences, each geometry offers distinct advantages throughout the workflow. Advanced synthetic fiber technology provides exceptional control when applying even the smallest amounts of material.

Advantages

- Maintain precise control over minimal material volumes with brush geometries specifically designed for the demands of micro-layering.
- Choose the ideal brush response for every task with five specialized geometries optimized for 3D shaping, 2D staining, and internal staining.
- Enjoy consistently reliable handling thanks to shape-retaining, chemically resistant synthetic fibers.

Details

- Five specialized brush geometries meet the diverse requirements of micro-layering workflows.
- Two newly developed geometries expand the capabilities of traditional ceramic and staining brushes.
- Advanced synthetic fiber technology is specifically engineered for handling paste-like materials.
- The fibers are resistant to modeling liquids, monomers, and alcohol-based cleaning agents.
- The modular refill concept allows individual brush inserts to be replaced as needed.
- The system includes an ergonomic aluminum handle and a premium hard case for secure storage and protection.

Further details

Micro-layering materials place different demands on a brush than conventional layering ceramics. Rather than relying on large liquid reservoirs, the focus is on the controlled handling of small material quantities and the precise creation of shape, shade, and surface texture. The lay:art micro system was developed specifically for these requirements, bringing the proven strengths of the lay:art family into the world of micro-layering.

The right brush for every micro-layering step

Ordering information

lay:art micro set	2 x lay:art micro fine handle, 5 x brush inserts (nano, sting, blade, spike, fan), premium hard case	No. 1726 0000
lay:art micro sting refill	2 pieces	No. 1726 0001
lay:art micro nano refill	2 pieces	No. 1726 0002
lay:art micro fan refill	2 pieces	No. 1726 0003
lay:art micro blade refill	2 pieces	No. 1726 0004
lay:art micro spike refill	2 pieces	No. 1726 0005
lay:art micro fine handle	1 piece	No. 1726 0006
