SILENT extraction units
Powerful and quiet dust extraction
Combine cleanliness and quietness
A workplace where the fine dust is greatly reduced and at the same time has a pleasant, low noise level greatly facilitates working. SILENT extraction units are therefore not only extremely powerful – with a suction capacity (depending on the version) up to a volume flow of 4 000 l/min. – but also surprisingly quiet, thanks to psychoacoustic findings.

Easy start, intuitive operation
Renfert extraction units can be very easily and quickly connected (Plug & Play), operated, cleaned and maintained. They provide the ideal filter technology for every requirement, with or without a bag depending on the version. The front of the unit allows convenient, direct access to all operating elements. All parameters can be very easily set using a membrane keypad or via a clear multifunctional display.

Increase process reliability with sophisticated motor technology
Two different motor technologies are available, which are both characterized by a very high service life. The collector motors with an elaborate transformer controller provide a motor running time of > 1 000 operating hours. If the motor has to be replaced after a long service life, this is easily completed within a few minutes. The EC motors with brushless turbine technology also have a long service life of > 5 000 operating hours.

SILENT V4

Four workbench extraction

Powerful, bag-free, four-workbench extraction unit with four independently controlled suction ports, pneumatic fine filter cleaning and long-lasting EC motor technology.

“With the Quattro control box I was able to connect my units in the test laboratory virtually without an extension cable. An overload protection is also included with this innovative technology.”

Joanna Deligianni
Product Management, Dental Technician

Advantages
- Secure production process through low-maintenance EC motor technology (> 5 000 operating hours).
- Virtually consistent suction power thanks to innovative, pneumatic filter cleaning re-adjustment.
- Low operating noise of max. 63 dB (A).

Details
- Suction power as required using four independently controlled pinch valves and automatic readjustment.
- Intuitive and centralized operability via LCD display and optional remote control.
- Central connection of all consumers thanks to the Quattro Control Box.

Making work easy
The commutatorless EC motor has a considerably longer motor running time in comparison with commutator motors (> 5 000 operating hours). This long-life motor technology ensures maximum process reliability and saves expensive service and maintenance costs.

SILENT EC2

Two workbench extraction

Powerful, bag-free extraction unit with two independently controlled suction ports, automatic filter cleaning and EC motor technology.

Advantages
- Secure production process through low-maintenance EC motor technology (> 5 000 operating hours).
- Consistent suction power thanks to automatic re-adjustment.
- Low operating noise of max. 55 dB (A).

Details
- No follow-up costs due to bag-free dust collection.
- Intuitive operation incl. handpiece calibration with large multifunctional display.

Two workbench extraction

Powerful, bag-free extraction unit with two independently controlled suction ports, automatic filter cleaning and long-lasting collector motor.

Technical data
Permissible mains voltage / frequency 220–240 V / 50/60 Hz
Suction turbine power 850 W (230 V)
Volume flow (max.) 3980 l/min (2.34 ft³/s)
Max. depression 281 hPa / 4.1 psi (230 V)
Filter quality Class M according to EN 60335-2-69
Max. permitted connected load of the plug in socket 2000 W (230 V)
Net connected power 2850 W (230 V)
Min. max. connection pressure 4.5 bar (65 psi) / 8 bar (116 psi)
Number of suction hoses 2
Sound pressure level (LpA) at max. volume flow 55 dB (A)
Fill level dust collector 7.0 l (1.85 gal)
Weight (empty) 23 kg (50.7 lbs.)
Dimensions (W x H x D) 285 x 535 x 540 mm (11.2 x 21.1 x 21.2”)
Ø suction fittings interior 45 mm (1.77”)
Ø suction fittings exterior 50 mm (1.97”)
Ordering information
SILENT TC2, 220–240 V / 50/60 Hz No. 2936 0000
Starter Kit Waste bag for SILENT TC, TC2, EC2 No. 2934 0015
External ventilation for SILENT TC/TC2/EC2/powerCAM EC No. 2937 0002

Additional accessories Pages 14–15

Scope of delivery SILENT TC2
SILENT TC2, Quick Start Guide, Compressed air tube (fixed on the unit), Connection set, 2 pinch valves with suction supports (already installed), Suction hose 4 m, 4 end bushings

Advantages
• Consistent suction power thanks to automatic re-adjustment.
• 3x longer service life in comparison to conventional collector motors (1 000 operating hours guaranteed).
• Low operating noise of max. 55 dB (A).

Details
• No follow-up costs due to bag-free dust collection.
• Working without interruption due to an uncomplicated motor change within minutes.
• Effective dust reduction using a high volume flow (approx. 4,000 l/min.).

Technical data
Permissible mains voltage / frequency 220–240 V / 50/60 Hz
Suction turbine power 1400 W
Volume flow (max.) 3300 l/min (1.94 ft³/s)
Max. depression 200 hPa (2.9 psi)
Filter quality Class M according to EN 60335-2-69
Max. permitted connected load of the plug in socket 2000 W (230 V) / 360 W (120 V)
Net connected power 3400 W (230 V) / 1800 W (120 V)
Mains input fuse 2 x 15 A (T)
Min./max. extern connection pressure 4.5 bar (65 psi) / 8 bar (116 psi)
Number of suction hoses 2
Sound pressure level (LpA) at max. volume flow 59 dB (A)
Fill volume dust collector 7.5 l (2 gal)
Weight (empty) ~ 27 kg (59.5 lbs.)
Dimensions (W x H x D) 224 x 591 x 584 mm (8.8 x 23.3 x 23.0”)
Ø suction fittings interior 45 mm (1.77”)

SILENT TS2, Suction hose 4 m, 4 PVC end bushings

Advantages
• Consistent suction power thanks to automatic re-adjustment.
• Low operating noise of max. 59 dB (A).
• 3x longer service life in comparison to conventional collector motors (1 000 operating hours guaranteed).

Details
• Intuitive operation incl. handpiece calibration with large multifunctional display.
• High degree of health protection through double filter system, optional H/HEPA filter available.
• Working without interruption due to an uncomplicated motor change within minutes.
NEW SILENT TC

Single workbench extraction

Powerful, bag-free extraction unit with automatic filter cleaning and long-lasting collector motor.

Advantages
- No follow-up costs due to bag-free dust collection.
- Low operating noise of max. 54.3 dB (A).
- 3x longer service life in comparison to conventional collector motors (1 000 operating hours guaranteed).

Details
- Comfortable operation of the switch-on function through key combination.
- Working without interruption due to an uncomplicated motor change within minutes.

Technical data
- Permissible mains voltage / frequency: 220–240 V, 50/60 Hz
- Suction turbine power: 850 W (230 V)
- Volume flow (max.): 2750 l/min (230 V)
- Max. depression: 2150 Pa / 31.7 psi
- Filter quality: Class M according to EN 60335-2-69
- Max. permitted connected load of the plug-in socket: 2000 W (230 V)
- Total connected power: 2850 W (230 V)
- Number of suction hoses: 1
- Sound pressure level (LpA) at max. volume flow: 54.3 dB (A)
- Fill volume dust collector: 7.5 l (2 gal)
- Weight (empty): ~ 26 kg (57 lbs.)
- Dimensions (W x H x D): 275 x 535 x 540 mm (10.8 x 21.1 x 21.3”)
- Ø suction fittings interior: 45 mm (1.77”)
- Ø suction fittings exterior: 50 mm (1.97”)

SILENT TS

Single workbench extraction

Powerful extraction unit with durable collector motor and double filter system.

Advantages
- Low operating noise of max. 63 dB (A).
- 3x longer service life in comparison to conventional collector motors (1 000 operating hours guaranteed).
- High degree of health protection through double filter system, optional H/HEPA filter available.

Details
- Working without interruption due to an uncomplicated motor change within minutes.
- Effective dust reduction using a high volume flow (approx. 3 300 l/min.)

Technical data
- Permissible mains voltage / frequency: 220–240 V, 50/60 Hz | 100–120 V, 50/60 Hz
- Suction turbine power: 1400 W (230 V) | 1000 W (100 V)
- Volume flow (max.): 3300 l/min (230 V) | 1980 l/min (100 V)
- Max. depression: 200 hPa (2.9 psi)
- Filter quality: Class M according to EN 60335-2-69
- Max. permitted connected load of the plug-in socket: 2000 W (230 V) | 360 W (120 V) | 500 W (100 V)
- Total connected power: 2800 W (230 V) | 1800 W (120 V) | 1500 W (100 V)
- Mains input fuse: 2 x 15 A (T)
- Number of suction hoses: 1
- Sound pressure level (LpA) at max. volume flow: 63 dB (A)
- Fill volume dust collector: 7.0 l (1.85 gal)
- Weight (empty): 22.0 kg (48.5 lbs.)

**A plus for the health of your staff – a plus for your CAM milling device**

The issue of extraction technology in your laboratory is becoming increasingly important. Renfert offers custom-made solutions for every area of application and, for several years now, especially for dental CAM units.

Health protection is an important factor as most milling work produces large quantities of fine dust particles within a very short period of time. This has to be extracted efficiently, and above all collected safely by a highly effective filter system – for a significant improvement of the laboratory environment.

**Bagless filter technology gentle on your finances**

Renfert uses bagless fine filter technology with mechanical cleaning for CAM extraction units. This means that the full suction power is available after each cleaning!

**The right solution for everyone**

Depending on the size and running time of your milling machine, Renfert will always give you the right solution. For smaller CAM units we recommend our SILENT compactCAM with collector motor, for larger CAM units with longer running times our SILENT powerCAM EC with brushless turbine technology. Both extraction units guarantee a strong suction performance and unite cleanliness and quietness in your laboratory.

---

**Extraction and CAM unit intelligently connected**

The PLC interface is the intelligent bi-directional communication with your CAM unit. This enables messages to be processed and tasks to be initiated, e.g. switching on and off, activating the cleaning of the fine filter and detecting the function status of the extraction unit. All you need to do is simply connect the extraction unit to your CAM device and off you go!

---

Application examples:

- **SILENT compactCAM (top)**
- **SILENT powerCAM EC (bottom)**

Photos: vhf camfacture AG (1); imes-icore GmbH (2)
**SILENT powerCAM EC**

Powerful, bag-free extraction unit with automatic filter cleaning and EC motor technology for heavily used CAM units.

**Advantages**
- Bi-directional communication between extraction unit and CAM equipment thanks to the PLC interface.
- Low operating noise of max. 54.3 dB (A).
- Secure production process through low-maintenance EC motor technology (> 5 000 operating hours).

**Details**
- High volume flow of approx. 4 000 l/min.
- No follow-up costs due to bag-free dust collection.
- Safe disposal of fine milling dust with the help of a disposal bag.

**Ordering information**

- SILENT compactCAM, 230–240 V, 50/60 Hz: No. 2934 2000
- SILENT compactCAM, 120 V, 50/60 Hz: No. 2934 3000
- SILENT compactCAM, 100 V, 50/60 Hz: No. 2934 3500

**Additional accessories**
- SILENT compactCAM, 220 V, 50/60 Hz
- SILENT compactCAM, 120 V, 50/60 Hz
- SILENT compactCAM, 100 V, 50/60 Hz

**Scope of delivery** SILENT compactCAM

- SILENT compactCAM, 220 V, 50/60 Hz
- 2 m suction hose incl. 2 end bushings
## Accessories

### Suction hose
- For SILENT TC2 / TC / V4 / TS2 / EC2 / TS / compact / compactCAM / powerCAM EC.
- 3 m (incl. 2 end bushings) No. 90003 4240

### Antistatic suction hose
- 3 m (incl. 2 end bushings) No. 90003 4826

### Suction hose
- For SILENT TC2 / TC / V4 / TS2 / EC2 / TS / compact / compactCAM / powerCAM EC.
- 6 m No. 90115 0823

### Suction hose
- For SILENT TC2 / TC / V4 / TS2 / EC2 / TS / compact / compactCAM / powerCAM EC.
- 9 m No. 90215 0823

### End bushing set
- For SILENT TC2 / TC / V4 / TS2 / EC2 / TS / compact / compactCAM / powerCAM EC.
- 2 pieces No. 2921 0003

### Silencer
- Up to 50% reduction of the perceptible extraction noise, with constant suction power. Quick and easy installation on the suction hoses. For SILENT TC2 / TC / V4 / TS2 / EC2 / TS / compact / compactCAM / powerCAM EC.
- Piece No. 2956 0000

### Universal hose connector adapter
- For SILENT TC2 / TC / V4 / TS2 / EC2 / TS / compact / compactCAM / powerCAM EC.
- Piece No. 90003 4430

### Adapter for hose connection
- Suitable for most common sized hoses. Accurately fitting connection without cutting to size. For SILENT TC2 / TC / V4 / TS2 / EC2 / TS / compact / compactCAM / powerCAM EC, Vortex compact 3L.
- Piece No. 90003 4305

### Extractor switch
- For connecting 2 dust producing devices. Via selection switch individually adjustable to one or two extraction openings. Tool free and fast connection. Ø suction fittings, interior/exterior 35/40 mm (1.38'/1.57”), Ø muffler interior/exterior 38/46 mm (1.50'/1.81”). For SILENT TC / V4 / TS, Vortex compact 3L.
- Extractor Switch incl. 4 mufflers (without hose) No. 2926 0000

### 90° angled connector
- For SILENT TC2 / TC / V4 / TS2 / EC2 / TS / compact / compactCAM / powerCAM EC.
- Piece No. 2934 0007

### Dust bag set
- 5 pieces No. 2921 0002

### H+Hepa Filter
- Even greater safety provided by a filtration efficiency of 99.995 %. Toolless, quick change of the filter. Each filter is delivered with an individual certificate (tested according to DIN EN 60335-2-69 A.3/ A4.22-201.2 and EN 1822-5 Hepa Filters / MIL-STD 282 Type: C). For SILENT TS / TS2.
- Set No. 90003 4410

### Extractor clamp
- Robust clamp made of beech wood. Secure fixture to work tables of 20–40 mm thickness. Variable and individual connection for extraction hose on the right or on the left (fitting 40 mm/1.57”). For SILENT TC2 / TC / V4 / TS2 / EC2 / TS / compact, Vortex compact 3L.
- Without glass pane No. 2925 0000

### Glass pane with attachment
- For extractor switch. Incl. attachment No. 2925 1000

### Dustex master plus
- The non-tip and non-slip Dustex master plus extractor box protects against splinters, dust and fumes. An ergonomically well-conceived form and height adjustable arm rests enable free, comfortable working.
- Dust box, fluorescent light with lamp cover, extraction port kit, armrests No. 2626 0105 (220–240 V) No. 2626 1105 (100–120 V)

### Caster set
- Helps easy, flexible placement of the unit. Casters are quickly and easily assembled. For SILENT TS / TS2.
- 4 pieces No. 2921 0001
Why a passion for dental craftsmanship and making work easy go hand in hand for Renfert.

At Renfert, we strive to make the dental technicians’ and dentists’ work easier and enable an ideal workflow. Our equipment and materials are developed in close cooperation with the people who work with them daily. Many users prize the quality and rely on this claim every day they work with Renfert products.

making work easy

WORKFLOW GUARANTEE

3 year guarantee
10 year spare parts service
Activity guarantee
